## **Project TNR: New Jersey's resource for feral cat and Trap-Neuter-Return (TNR) information** *Advocating for feral cats and feral cat caregivers through education and policy initiatives*

The mission of Project TNR is two-fold:

- 1) to support feral cat caregivers through advocacy, networking, education and access to funding
- 2) to introduce Trap-Neuter-Return to New Jersey's communities as the humane, effective and cost-effective method of controlling feral cat populations

### **For feral cat caregivers or organizations Project TNR:**

- administers a feral cat advocate email listserve for sharing of resources and experiences;
- makes available educational materials;
- provides, free of charge, New Jersey's feral cat newsletter, the *Caregiver Connection*, for networking and keeping abreast of the latest news on TNR in New Jersey;
- works with veterinarians to provide low-cost spay/neuter;
- advocates on a state level for funding of TNR;
- assists caregivers with towns, ACOs, apartment managers or condo boards; and
- gives caregiver training workshops.

### **For municipal officials Project TNR:**

- offers presentations to health and animal control officers, mayors and council members on the many benefits of instituting a TNR program;
- helps devise and implement a TNR program;
- connects your town with experienced TNR individuals and organizations in your area who may be able to implement your TNR program with you;
- works with municipal officials to explore funding options and find the lowest cost spay/neuter services in the area;
- helps draft ordinances and policies; and
- provides our expertise, advice and involvement free of charge.

Additionally, Project TNR offers these services to apartment or condominium managers looking to manage feral cat populations.

Support of Trap-Neuter-Return, along with an aggressive public education program emphasizing the benefits of spaying and neutering, is critical in the effort to stem the feral cat population crisis in New Jersey.

We encourage you to contact us to see how we can work together to improve the lives of feral cats, reduce the killing, engender public support and make TNR *New Jersey's Humane Solution*.
